

Town of Carrot River

Garbage and Recycling Quick Reference

What can you do to help make garbage and recycling collection effective and efficient saving money for the Town, **therefore saving money for all taxpayers?**

In order to ensure emptying your cart:

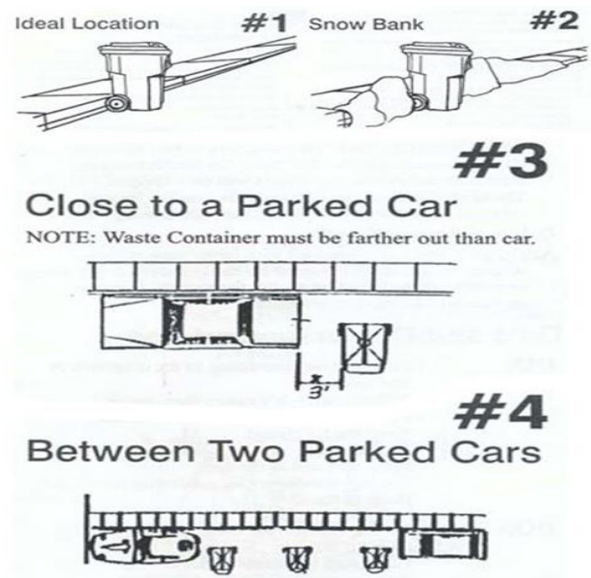

- put your cart out before 8 am on your collection day
- put **ONLY** the cart being collected that day (annual calendar provided and on website)
- Place everything in the cart, **DO NOT** place anything outside of or beside the cart as it **WILL NOT** be picked up and it may even prevent your cart from being emptied
- **Did you know?** If all your recycling does not fit in your blue cart, the Town provides a large blue recycling bin at the corner of Railway and First Street West for residential use for **FREE**.
- If all your garbage does not fit in your black cart, the Town has a transfer station on Birch Road (Town shop yard) for your use for a **fee**

Is this just an extra hand out that you really want to collect? The annual schedule is also available online at live.carrotriver.ca/garbagecalendar

However, If this is something you like to have on hand but mis-place yours, we have paper copies at the Town Office for anyone to pick up for **free**. We also have a brochure detailing what is acceptable to place in blue recycling bins as well as tipping fees online and at our office for pick up should anyone need.

The annual schedule is made and put in a general mailout the month prior to the new schedule taking effect. Should you wish to receive a copy of the schedule or brochure to be mailed directly to you direct, please notify us by calling (306) 768-2515 or email t.carrotriver@sasktel.net

The following examples are the **CORRECT** placement of your cart, **DO NOT place them on the sidewalk if you have one!** Please remove them from the street as quick as possible on the day of emptying to assist with scheduled snow removal/street cleaning depending on the season.

Carrot River thanks you for your continued support in the community and wish you a safe 2021. #CarrotRiverCares ❤️
