

# Facility Manager's Report

September 12, 2024

## Arena Maintenance:

- Started putting ice in on August 31<sup>st</sup>
- Had trouble with ice on September 2<sup>nd</sup>
  - Painted with too much heat outside and the plant shut down
- On September 7<sup>th</sup> and 8<sup>th</sup> had trouble with the heat again and could not flood
  - Put a sprinkler on to cool the condenser off on the 8<sup>th</sup>
- Wrapping up at the hose floods today
- Having a meeting with LiveBarn next week
- Have a lift coming next week to take the old sign off the building to put up the new sign
- Cleaning and washing the arena

## Community Hall:

- Met with engineer for the rafters and got drawings back sent them to Taryn

## Mowing:

- Removed some branches.
- Talked to Kris Holmen about removing the trees between the arena and the school. The trees along Nickelson Drive will have to be cut down by somebody with a chainsaw due to three phase powerline underground
- The Walker and the cut mower are back at the shop just finishing up with the fine cut mower and then will return it this week
- Cut the grass at the square one last time
- At the hall, there is some ruts to fix and some around the Hall building
- Also the holes from the old trees on railway avenue need to be filled
- Need fencing straightened around the shop yard and rental storage compound
- Ruts along the ditch by Carridel Apartments

## HR:

- Attended the meeting briefly so I had to go back and flood
